ONCOREFILTRATION.COM

Welcome to OnCore Filtration™

- and thank you for the opportunity to share our story.

At OnCore, our mission is simple: to create products and partnerships that help everyone we serve succeed. That mission drives every decision we make, every product we develop, and every relationship we build.

We believe filtration is about more than keeping water clean. It's about helping families enjoy cleaner, more enjoyable pool and spa experiences. Every filter we manufacture is designed with that purpose in mind, to deliver dependable performance and peace of mind to the people who rely on our products every day.

Our commitment extends beyond the end user. We are dedicated to supporting the dealers, distributors, retailers, and service professionals who are the backbone of our industry. Your success matters to us. We understand that our products represent your reputation, which is why we are focused on delivering quality, reliability, exceptional value, and exceptional service.

What truly sets OnCore apart is our belief in partnership. We are not simply a supplier; we are a team committed to helping our customers grow, compete, and succeed. By listening to our partners, investing in innovation, and continually improving our operations, we strive to provide solutions that create lasting value for everyone we serve.

As we look to the future, our commitment remains unwavering: to exceed expectations through exceptional products, reliable delivery, responsive support, and a relentless focus on customer success. Together, we are building a stronger future for the pool and spa industry.

Thank you for your trust, your partnership, and the opportunity to serve you.

Jose Perez

President, OnCore Filtration™

WHY ONCORE?

OnCore Filtration™ filter cartridges are proudly manufactured and assembled in Manning, South Carolina, using the highest-quality domestic and globally sourced components. With more than 150,000 square feet of manufacturing and distribution capacity across facilities in Manning, Timmonsville and Darlington, South Carolina, and future West Coast expansion plans underway, OnCore is built to provide the inventory, responsiveness, and on-time delivery our customers depend on.

Through direct investment in world-class manufacturing operations around the globe, we continue to expand our portfolio of premium filtration products, delivering the scale, supply, and product breadth needed to help our customers grow and succeed at every level.

TWO PROVEN TECHNOLOGIES. ONE TRUSTED NAME.

OnCore Point Bond replacement filter cartridges are engineered to deliver exceptional water clarity, dependable performance, and long service life in demanding pool and spa environments. Constructed with injection-molded virgin ABS cores and premium high-filament count spun-bond polyester media, they provide high performance debris capture and consistent water flow. Durable urethane end caps resist chlorine, mildew, and chemical deterioration, creating a rugged, easy-to-maintain cartridge. Available in EverClear trade-grade and EverFlow Antimicrobial media options to meet a variety of filtration needs.

DRIVEN BY INNOVATION

At OnCore, innovation extends beyond the pool and spa industry. We continuously explore advancements in filtration, nonwoven textiles, material science, and fluid management to identify technologies that improve performance. Through ongoing investment in research and development, we refine our media designs to deliver cleaner water, longer filter life, and high-performance filtration.

POINT BONDING

Modern polyester spun-bond media is created by spinning continuous fibers at high speeds to form a highly uniform filtration web. To ensure strength and stability, those fibers must be securely locked in place.

OnCore utilizes point-bonded media, where the web passes over a patterned calender roller that creates a consistent weld pattern throughout the material. These weld points lock fibers together while maintaining open pathways for water flow and particle capture.

In pool and spa applications, the weld pattern promotes filter cake formation, improving filtration efficiency as the filter loads. Water naturally channels around the weld points, enhancing contaminant capture while maintaining flow. When cleaning is required, the consistent bond pattern helps release trapped debris, reducing media blinding and restoring performance more effectively than conventional constructions.

WEB LOFT

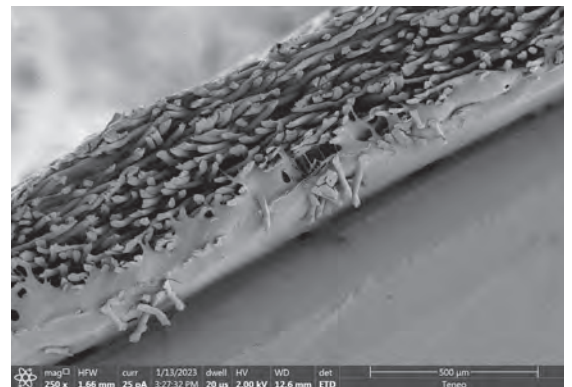

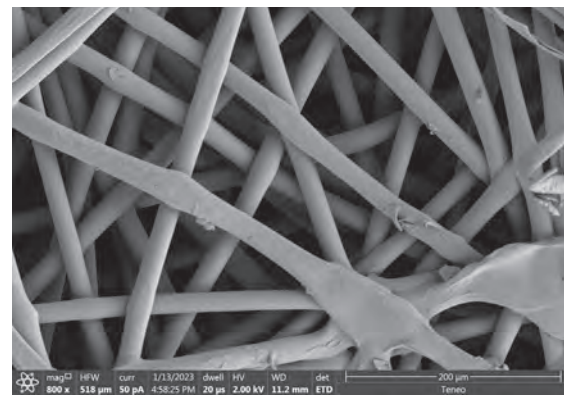

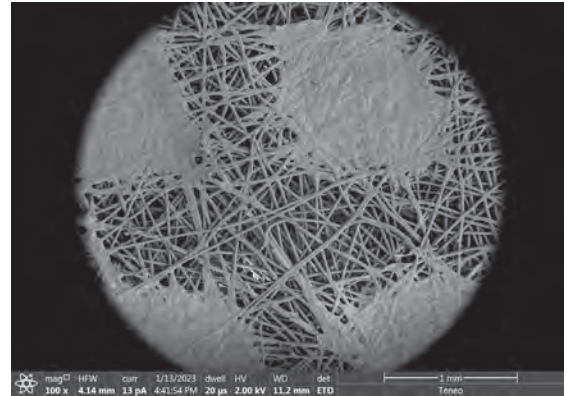

OnCore's low-denier, high-fiber-count polyester media creates an exceptionally high number of fiber crossover points throughout the web. This structure produces more uniform pores and significantly greater fiber surface area, allowing the media to capture fine debris while maintaining excellent flow characteristics.

Low-denier point-bonded media is designed to improve water clarity and filtration efficiency.

Because the surface welds do not penetrate through the entire media thickness, water travels throughout the loft of the web rather than only across the surface. This maximizes fiber utilization, increases dirt-holding capacity, and improves overall filtration efficiency.

The combination of point bonding, low-denier fibers, high fiber counts, and optimized web loft creates a filtration media with strong particle capture, exceptional durability, and advanced filtration performance. Through ongoing investment in research and development, our engineering and product development teams work to refine media construction, optimize fiber characteristics, and incorporate emerging manufacturing technologies into our products. By looking beyond traditional pool and spa applications, we are able to adopt proven innovations and apply them to create more effective filtration solutions.

This commitment to continuous improvement enables OnCore to stay at the forefront of filtration technology. The result is cleaner water, improved filter performance, longer service life, and a better overall ownership experience for pool and spa users. As filtration technologies continue to evolve, OnCore remains dedicated to delivering the next generation of high-performance filtration media.

POWERFUL MEDIA.

EVERBRITE™

PREMIUM POOL FILTER CARTRIDGES

At OnCore, we've spent the past five years developing filtration solutions that push the industry forward. When pool professionals needed a cartridge capable of handling year-round operation, heavy bather loads, and demanding algae environments, we saw an opportunity to innovate. The result is the all-new OnCore EVERBRITE™, engineered with commercial-grade flat-bonded filtration media and powered by our patent-pending Integrated Core Supports. Designed for durability, performance, and reliability, EVERBRITE is engineered to elevate pool filtration performance.

EVERBRITE™

- ✓ **Manufactured on the latest-generation nonwoven lines** using advanced spun-bond technology for exceptionally even fiber distribution.
- ✓ **Engineered specifically for regions with year-round usage**, persistent debris, and high bather loads, common in high-dust, high-pollen environments especially across the sunbelt.
- ✓ **Enhanced open-weave media structure** slows filter-cake formation, minimizes clogging, and extends service intervals with fewer cleanings.
- ✓ **Strong media enhances structural integrity**, helping pleats resist collapse, clumping, and deformation under load, while maintaining effective filtration area for longer.

- ✓ **Revolutionary, Patent Pending core designed** to enhance efficiency, precision, and consistency.
- ✓ **Provides added strength along the full cartridge length**, with at least two integrated core supports for enhanced rigidity.
- ✓ **The stackable design builds strength directly into the cartridge** rather than relying on secondary reinforcement.
- ✓ **Precision-cut cores without chemical bonding** provide maximum structural integrity, while maintaining longer, effective filtration area.

OnCore SPLASH

Premium Replacement Filter Cartridges for Inflatable Pools

OnCore SPLASH Filter Cartridges deliver advanced filtration performance for inflatable, portable, and above ground pools. Manufactured using high-strength, tear-resistant polyester media and reinforced injection molded cores, these cartridges provide high-efficiency debris capture, excellent flow performance, and long service life, even after repeated cleanings and reuse.

BUILT TO LAST
ALL SEASON LONG

LONGER LIFE
Designed for season after season use.

POWERFUL FILTRATION
High quality Point Bond Media.

BETTER VALUE
High performance filtration at an affordable price.

LOWER FILTRATION
Cheaper media underperforms.

Turn an Average Small Pool Pump into a High Performance Filtration System.

- Long-life, high-value alternative to standard disposable cartridges for inflatable pools
- Reduced maintenance frequency
- Fewer cartridge replacements
- Better pump efficiency
- Cleaner water throughout the season
- Lower operating costs

PREMIUM POLYESTER FILTRATION MEDIA

• High-strength, tear-resistant polyester media captures fine dirt and debris for cleaner, clearer water.

INJECTION MOLDED CORE

• Reinforced injection molded core delivers enhanced durability and optimized water flow

BUILT FOR SEASONAL USE

• Engineered for durability and dependable performance throughout the entire swimming season.

GREAT VALUE INTEX® REPLACEMENT

• Premium quality replacement for Intex® filter cartridges delivering excellent performance at a great price.

Low-quality disposable cartridges often deliver poor filtration and require frequent replacement. OnCore SPLASH filter cartridges are engineered with premium polyester media and reinforced cores to provide cleaner water, longer life, and consistent performance season after season, all at an exceptional value.

System 3

PREMIUM FILTER CARTRIDGE SET

OnCore™ System 3 filter cartridges are engineered for exceptional water clarity, durability, and ease of maintenance for residential swimming pools and spas. Designed for true System 3 compatibility, these high-capacity cartridges maximize filtration efficiency while minimizing service time and water waste.

Driven by OnCore's commitment to quality, value, and service, our **System 3 cartridges** deliver reliable, high-performance filtration at a competitive price. Built with commercial-grade flat bond media and a true dual-cartridge design, we do not use any adapter plates or spacers, ensuring a true replacement unlike some alternatives on the market.

System 3 filtration uses a dual-cartridge design within a modular tank for broad debris capture, including:

- **Coarse filtration** – larger debris (leaves, hair)
- **Fine filtration** – smaller particles (dirt, algae)

This staged approach delivers:

- **Exceptional water clarity**
- **Extended cleaning cycles**
- **High flow performance**

TRUE TWO-CARTRIDGE DESIGN

- **Exact System 3 Fit**
- **No Adapters or Manifold Plate Required**

FLAT BOND FILTRATION MEDIA

- **Fine-denier, Polyester**
- **Commercial Grade Industry Standard**

STAGGERED-SUPPORT OPEN FLOW CORES

- **Optimized Flow**
- **Engineered Injection Molded Strength**

QUICK CLEANING DESIGN

- **Fast Rinse**
- **Easy Maintenance**
- **No Backwash Required**

Our unique **Open-Flow Cores** feature **injection-molded, staggered support cores** that maximize water flow across the filtration media for enhanced efficiency and debris capture. Engineered for strength under pressure, these cores work in harmony across both inner and outer cartridges to deliver balanced, high-performance filtration.

Made with fine-denier, flat bond filtration media, this commercial-grade, industry standard filtration fabric is manufactured on the latest-generation non-woven lines using advanced spun-bond technology for exceptionally even fiber distribution. Its enhanced open-weave structure slows filter cake formation, minimizes clogging, and extends service intervals with fewer cleanings, delivering reliable performance in demanding commercial filtration applications.

PUREX

Replacement DE Filter Grids

OnCore replacement PUREX DE Filter Grids are designed for high-efficiency filtration performance, durability, and long service life. Featuring high-quality polyester media, reinforced frame construction, and chemically resistant components, these grids provide reliable operation and efficient debris removal for pool and spa filtration systems.

Engineered with reinforced 6-inch sectional support spacing to improve overall grid rigidity and stability during operation and servicing.

This staged approach delivers:

- Reduces flexing and distortion
- Easy cleaning and maintenance
- Enhances long-term structural integrity

SPUN-BONDED POLYESTER FILTER MEDIA

- High-strength polyester
- Chemical-resistant synthetic fiber

REINFORCED CONNECTOR

- Increases durability under pressure and repeated handling

CHEMICALLY RESISTANT THREAD

- Designed to withstand harsh pool and spa chemicals.

ULTRA STRONG SEAMS

- Improves durability under pressure and handling

Our PUREX DE filter grids are constructed from high-strength spun-bonded polyester media engineered for durability, chemical resistance, and long service life. Designed to support an even coating of DE powder, the media delivers effective filtration and enhanced debris capture. Resistant to tearing, stretching, and harsh pool chemicals, it maintains excellent water flow while trapping fine particles for cleaner water.

DE GRIDS

Premium Replacement Universal DE GRIDS

Our new DE Grids are engineered for reliable, high-performance filtration in most common pool filtration systems. Constructed with pool-grade fibrillated polypropylene fabric, durable ABS resin frames, and reinforced center tubes, they deliver efficient debris capture and optimal water flow. Precision stitching prevents bypass and leaks, while universal compatibility and product tags make replacement and reordering simple.

Efficient Debris Capture – Fibrillated woven polypropylene fabric traps fine particles while maintaining excellent water flow and filtration efficiency.

CHEMICAL-RESISTANT FABRIC

• Ability to withstand pool chemicals and harsh water conditions for long-lasting durability.

CRACK-RESISTANT FRAME

• Durable ABS resin frame holds up season after season with reinforced center tube for optimal flow.

HIGH STRENGTH THREAD

• Ensure secure seams, prevent bypass, and provide reliable, long-lasting performance.

QUICK-REFERENCE PRODUCT TAGS

• Clearly display key dimensions and weights for fast product identification & simplified ordering.

OnCore **FitKit**™

All-In-One Filter Service Bundle

* Includes both the filter cartridge and FitKit in one box.

Replacing a filter cartridge almost always means breaking the tank seal, costing time, creating extra trips, and sending techs digging through the truck for the right O-ring and lube. **OnCore FitKit™** is the solution: a small, purpose-built service kit bundled with OnCore® filter cartridges, giving service pros everything they need to reseal the tank correctly the first time. No extra stops. No guesswork. No callbacks.

Built for Service Pros

- Save Time on Every Service Call
- Work Faster, Cleaner, Smarter
- No extra stops. No extra purchases
- Everything You Need in One Kit

New & Exclusive!

Bundled with OnCore® Filter Cartridge, kit includes:

- Premium O-ring
- Professional grade silicone sealant
- Pre-moistened hand wipe

Now launching with select top OEM filters.

Please read this document carefully, as it contains vital information regarding the Buyer's rights and obligations, including limitations and exclusions that apply.

ON TIME DISTRIBUTION, LLC, AND ITS DIVISION ONCORE FILTRATION™ OFFER TO SELL TO THE BUYER EACH PRODUCT SET FORTH ON THE ONCORE ISSUED INVOICE SENT TO THE BUYER ONLY UPON THE FOLLOWING TERMS AND CONDITIONS (COLLECTIVELY, A "SALE AGREEMENT"). BY PLACING AN ORDER FOR A PRODUCT WITH ONCORE, EXECUTING ONCORE'S CREDIT APPLICATION, SENDING OR MAKING A PAYMENT, OR TAKING DELIVERY OF THE PRODUCT, THE BUYER AGREES TO THE TERMS AND CONDITIONS OF THE SALE AGREEMENT AND ACKNOWLEDGES THAT THE PERSON PLACING THE ORDER HAS THE AUTHORITY TO ENTER INTO THE SALE AGREEMENT ON THE BUYER'S BEHALF.

Definitions: "Buyer" shall mean the individual or entity so identified on the OnCore Invoice. "OnCore" shall mean On Time Distribution, LLC, or its division OnCore Filtration™. "Product(s)" shall mean such OnCore product(s) sold to the Buyer according to this Sale Agreement. These terms and conditions may change from time to time without prior notice and at our sole discretion. The latest version of the terms and conditions will be posted on our website. If the Buyer is unable to view these terms and conditions on the Internet, a copy can be provided to the Buyer by e-mail if requested. Please review these terms before purchasing any product or service.

PRICING

OnCore generally makes its price for a Product known through price lists and sales quotes. Prices are subject to change without notice. OnCore's prices, unless otherwise expressly stated in writing, do not include sales, use, excise, value added, or similar taxes or duties. OnCore makes no guarantee that a previously quoted price is available at the time an order is placed. Each request for a product will be filled at the prices set forth on the quote, or, if no price appears, at OnCore's current list price for the Product at the time it is shipped.

TAXES

The Buyer assumes exclusive liability for any and all taxes, tariffs, fees, duties, withholdings, or like charges, whether domestic or foreign, now imposed or hereafter becoming effective ("Taxes") related to the Product and its purchases from OnCore, including without limitation, federal, provincial, state, and local taxes, value-added taxes, goods and services taxes, stamp, documentary, excise or property taxes, duties, and other governmental charges. The Buyer shall pay these taxes directly if the law permits or will reimburse OnCore if it is required to pay them. The Buyer will provide tax exemption certificates or evidence of tax payment upon request. We cannot ship to a U.S. state where a valid exemption certificate has not been provided.

SHIPPING & DELIVERY

A. General Terms – All Shipments

The following terms apply to all shipments regardless of shipment type. Customers who utilize both LTL/Truckload and Fulfillment services are bound by the General Terms plus the applicable service-specific section for each shipment type.

Charges for shipping and handling will be made in accordance with OnCore's current shipping policies. The Buyer shall bear all risks and expense for delivery of the Product, including and without limitation, shipping, loading, unloading, storage, freight, and insurance. A Product may be shipped to the Buyer in whole or in part and will be shipped FOB (Freight on Board) from an OnCore shipping location, unless otherwise specified on the face of the invoice or as stated in the freight policy. A signed delivery receipt or Bill of Lading (BOL) will constitute proof of delivery.

TERMS & CONDITIONS

If the Buyer arranges its own carrier, OnCore makes no representation as to the acceptability of a particular carrier and shall not be liable for any loss, damage, delay, or additional costs incurred once the shipment has been transferred to the Buyer's nominated freight provider. The Buyer assumes full responsibility for the shipment upon release to their selected carrier. In the event the Buyer does not select a carrier, OnCore will use its discretion to make the most economical choice.

Unless OnCore expressly publishes exclusive offers or agrees otherwise in writing, OnCore does not guarantee shipment or delivery by a specific date or time. OnCore will make reasonable efforts to deliver the Product by the estimated date communicated to the Buyer. OnCore shall not be liable to the Buyer or any other party for any loss or damage resulting from shipment or delivery delays, or failure to provide notice of such delays, regardless of whether the delay was caused by OnCore or other factors. The Buyer is solely responsible for filing and managing any freight claims. OnCore reserves the right to place any product on backorder and to fulfill back-ordered items at its sole discretion and in the order it determines.

B. LTL / Truckload Shipments

OnCore Filtration provides free freight for LTL/Truckload orders as per your customer agreement. This offer is subject to standard shipping conditions and does not include lift gate services, residential delivery, or any additional freight charges incurred beyond standard shipping terms. If any of these additional services are utilized without prior approval from OnCore, the customer will be responsible for all associated fees and will be invoiced separately. OnCore Filtration reserves the right to determine eligibility and modify freight terms at its sole discretion.

Freight Claims – LTL/Truckload: The consignee (ship to) / customer is responsible for filing a freight claim on a lost or damaged product with the carrier. Products must be counted and inspected immediately upon receipt from the carrier. Items missing or damaged should be clearly documented on the Bill of Lading (BOL) and signed while the driver is present. Freight claims should then be filed with the carrier. If any concealed damage is noted after receipt of goods, the carrier should be notified immediately and an inspection of the product(s) requested so that the proper liability may be identified, and appropriate claim(s) filed.

C. Fulfillment Shipments

The following terms apply to orders fulfilled and shipped by OnCore as small parcel / fulfillment shipments that are shipped via FedEx:

- **Lost or Mis-Delivered Packages:** If you have not received your package within seven (7) days, please contact our Customer Service Representative (CSR) via email (customer.service@ontimedistributor.com) for any suspected lost or misdelivered packages. Be sure to include your order number.
- **Refused Shipments:** Deliveries that are refused will not be refunded. Please refer to the Returns section below and follow the instructions if the Buyer wishes to return the product(s). This includes packages that are delivered damaged; please refer to our Shipping Damage Policy.
- **Undeliverable Address:** If a shipment is returned to the facility due to an undeliverable address, the Buyer is responsible for any shipping costs incurred to reship the order, along with a 15% restocking fee.
- **Address Changes:** Any address changes after the package(s) have shipped must be requested via email to our CSR at customerservice@ontimedistributor.com. Any fees incurred for address changes will be charged to the customer.
- **International Orders:** OnCore will attempt to accommodate international shipping requests made within reasonable timeframes; however, OnCore cannot guarantee the acceptability of any carriers. Buyers are responsible for all import duties, taxes, and additional fees that customs agencies may impose.

PAYMENT

All invoices are due and payable in full, less applicable discounts or rebates, without deduction or set off, in accordance with the terms stated on the OnCore invoice. Payment must be made using only the methods authorized by OnCore and within the specified due date. The Buyer acknowledges that once payments are sent or made, they cannot be canceled. The Buyer certifies that all account information provided for payment is current, accurate, and complete. Any early payment discount will be forfeited if the Buyer's check or payment is returned or canceled for any reason.

For pre-pay customers or accounts without established payment terms, OnCore reserves the right to withhold shipment of orders if payment is not received at the designated payment method in accordance with the invoice terms. OnCore reserves the right to cancel an order after 30 days or at its sole discretion if payment has not been received by the agreed upon due date. Payment terms require 50% upfront and the remaining 50% at the time of shipping.

If the Buyer elects to receive invoices electronically, they are responsible for providing and updating a valid email address. Electronic invoices are subject to the same terms and conditions as paper invoices. Credit terms are at OnCore's sole discretion. The Buyer may be required to furnish financial information to establish or maintain a credit line. Standard payment terms for goods shipped by OnCore are net 30–90 days from the date of shipment depending on the agreed terms of the account. Delays in the Buyer's receipt of the invoice, due to factors beyond OnCore's control, do not extend the payment period.

Accepted payment methods include ACH, check, and wire transfer. Cash payments are not accepted at this time. Returned checks are subject to a \$30 fee. If the Buyer fails to make payment within 30 days of shipment, OnCore reserves the right to charge interest at a rate of 1.5% per month (18% annual percentage rate) on the total outstanding balance.

CHANGES IN PRODUCTS

We are always updating and revising our product line and services, and we may choose to discontinue products or services at any time. Please review our website or email our Customer Service department at customerservice@ontimedistributor.com to inquire about a particular model of interest. OnCore is not held liable for any lack of availability of products or services a Buyer may try to order.

LIMITED WARRANTY

Provided that a Product is not altered or damaged by someone other than OnCore, and for up to 90 days from the date that OnCore ships the Product to the Buyer, OnCore hereby warrants that such Product (other than Promotional or Irregular Goods, as described below) shall (i) conform to OnCore's published specifications and generally released consumer/end-user limited warranty coverage terms, subject to reasonable variations, manufacturing tolerances, the occurrence of non-material or minor separations and appearance deviations, and (ii) for authorized resellers of OnCore, shall be merchantable for ordinary purposes for which such Product is intended to be used. Notwithstanding the foregoing, once a Product has been installed, such Product is deemed accepted by the Buyer and no warranty shall apply to appearance-related claims.

As the Buyer's sole and exclusive remedy for a breach of the above warranty and at OnCore's sole discretion, OnCore will replace a product that does not conform to an applicable OnCore warranty; provided, however, that OnCore shall not be responsible to replace a product which has been damaged or altered by the Buyer or its customers. With respect to a Product sold as "Promotional" or "Irregular" Goods by OnCore, including, without limitation, drops, discontinued items, seconds, or the like, such Product is sold to the Buyer "AS IS/WHERE IS" without any warranty of any kind except as otherwise expressly agreed to or published by OnCore.

EXCEPT AS SET FORTH ABOVE AND TO THE MAXIMUM EXTENT PERMITTED BY LAW, ONCORE MAKES NO OTHER WARRANTIES FOR A PRODUCT OR UNDER THIS AGREEMENT AND HEREBY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE OR USE.

All Buyers must inform OnCore, by providing within the applicable warranty or statutory period, complete and specific itemized detail of all claims in the warranty or at law that the Buyer may have for such warranty or statutory remedy to be applicable.

OnCore Filtration™ cartridges are guaranteed against defects resulting from faulty workmanship or materials. The liabilities of OnCore Filtration™ are limited solely and exclusively to replacement and do not include any liability for incidental, consequential, or other damages of any kind whatsoever, whether a claim is based upon theories of contract, warranty, negligence, or tort, and, without limitation, do not include shipping charges, labor, installation, or any other losses or expenses incurred in operation or installation.

PROHIBITION ON ONLINE SALES

OnCore Filtration™ branded products are not authorized for sale online under any circumstances. The Buyer agrees that OnCore Filtration™ branded products purchased from OnCore may only be sold through physical retail locations, in-person transactions, or directly to service professionals and end-users, and may not be listed, marketed, or sold on any online platform or e-commerce site, including but not limited to Amazon, eBay, Walmart Marketplace, social media storefronts, or the Buyer's own website. Any violation of this policy will be considered a material breach of this Agreement and may result in immediate termination of the Buyer's account, cancellation of pending orders, and disqualification from future purchasing privileges. OnCore reserves the right to take legal action to enforce this provision and to protect the integrity and positioning of its brand.

ORDER CANCELLATION

We strive to exceed our customers' expectations and are dedicated to fast order processing and expedited shipping. If there is a need to cancel an order, a written email request must be sent to our customer service department at customerservice@ontimedistributor.com. Providing the order has not been processed, we will work to accommodate this request. OnCore may cancel or terminate a Sale Agreement in whole or in part at any time by giving written notice of such to the Buyer. Cancellation or termination by OnCore shall not constitute a waiver or release of any other rights and remedies of OnCore in contract or provided by law or at equity.

INDEMNITY; LIABILITY LIMITATION

The Buyer hereby agrees to indemnify, reimburse in full, defend and hold harmless OnCore, its parent, subsidiaries, affiliates, officers, directors, personnel and agents from and against any and all liability, claims, suits, actions, losses, costs or expenses including (without limitation) reasonable attorneys' fees relating to or arising out of any claim or demand (a) for any Taxes or related penalties and interest, (b) due to the Buyer's breach of the Sale Agreement; (c) that the Buyer's customers or a third party may make against OnCore based upon or arising from damage due to the acts and/or omissions of the Buyer or due to the installation of a Product; (d) related to the failure of any payment sent or made by the Buyer to be honored or to satisfy the requirement of this Agreement; (e) for infringement or misappropriation of a third party's intellectual property rights based upon OnCore's incorporation of any designs, formulas or specifications in a Product where such designs, formulas or specifications have been specifically ordered or requested by the Buyer.

To the maximum extent allowable under applicable law and excluding those liabilities that by law OnCore cannot limit or disclaim, (i) OnCore's aggregate liability arising from or relating to this Sale Agreement or a Product, regardless of the cause of action asserted, is limited to the amount paid by the Buyer to OnCore for the applicable Product and (ii) OnCore shall not be liable for any special, incidental, consequential, indirect, or punitive damages, including without limitation, lost revenues, loss of use of the Product, loss resulting from improper storage, processing, delay in delivery or shipment or errors in shipment or labeling, loss of data, or the cost of any substitute Product or related equipment, even if OnCore has been advised of the possibility of such damages.

FORCE MAJEURE

In addition to any excuse provided by applicable law, OnCore is excused from liability for non-delivery or delay in the delivery of Products arising from any event beyond its reasonable control, whether or not foreseeable by either party, including but not limited to labor disturbance, war, fire, accident, adverse weather, inability to secure transportation, supplier delay, raw material shortages, pandemic, governmental act or regulation, and other causes or events beyond our reasonable control, whether or not similar to those listed above.

GOVERNING LAW AND ATTORNEYS' FEES

Each Sale Agreement shall be governed and construed in accordance with the laws of the State of South Carolina, without reference to any conflicts of law principles. Any litigation instituted by the Buyer against OnCore that pertains in any manner to this Agreement, or the Product must be instituted in the Court of Common Pleas, Florence County, South Carolina. The Buyer agrees to be subject to the jurisdiction of this court. Any such litigation instituted against the Buyer by OnCore may, at OnCore's option, be instituted in the courts identified above or in the state in which the Buyer maintains its principal place of business. The U.N. Convention on Contracts for the International Sale of Goods shall not apply to this Sale Agreement. If any term, provision, or condition of a Sale Agreement is held invalid or unenforceable, the same shall not invalidate or otherwise affect any other provision thereof.

In the event legal action is undertaken by OnCore to collect any amounts due to OnCore by the Buyer hereunder and if OnCore prevails in such action, then the Buyer shall reimburse OnCore for its reasonable attorney fees and costs incurred in conjunction with such action, which amount shall not exceed the maximum amount allowed by law of the forum in which such action is brought.

ENTIRE AGREEMENT; MODIFICATIONS

Each Sale Agreement constitutes the entire agreement between OnCore and the Buyer concerning the subject matter thereof and supersedes all prior oral or written agreements. The Sale Agreement may not be amended or modified, except by a further written agreement signed by an authorized representative of OnCore. OnCore reserves the right to make reasonable changes to a Sale Agreement, including changes to packaging, testing, specifications, designs, and delivery schedules. The terms and conditions of any purchase order or other instrument issued by the Buyer or its agent in connection with this Sale Agreement or a Product that is in addition to or inconsistent with the terms and conditions of this Agreement are null and void and shall not be binding on OnCore.

RETURNS

Buyers may return product(s) within 30 days of purchase by contacting our Customer Service Representative (CSR) via email at customerservice@ontimedistributor.com to obtain an authorized Return Material Authorization (RMA) number. All returns must have an RMA number to be processed for credit. Along with the number, the CSR will provide the Buyer with the return address to where the package is to be returned. An RMA number is only valid for 30 days from the date of issuance. Credit will not be issued if a return is received after the 30-day return window. Please refer to the following when requesting an RMA number:

- ALL RETURNS must be received in their original packaging and unused condition. If a return was sent before receiving an RMA number, OnCore cannot guarantee credit will be provided. If we can locate the appropriate order number, credit will be issued providing the product is not damaged and received in a resalable condition. If a product is returned to OnCore that should not have been returned, we will not process credit and will dispose of the item accordingly.

- DEFECTIVE PRODUCT – Customer Service will require an email with a complete description and photographic proof of the issue. We may ask to have the product returned to us for inspection. Return label/call-tag fees will be covered by OnCore Filtration™ if the item is found to have issues pertaining to manufacturing defects. If no defect is found, the customer is responsible for the shipping fees.

- WRONG ITEM ORDERED AND SHIPPED – If a Buyer orders the wrong item and wishes to return it, an authorized RMA number is required. Return shipping charges, along with a 15% restocking fee, will be charged to the customer. If returned to the wrong location, credit will not be issued.

- ADDRESS CHANGES – Any address changes after the package(s) have shipped will need to be requested via email to our CSR at customerservice@ontimedistributor.com. Any fees incurred for address changes will be charged to the customer.

Why Hunt Through Pages When You Can Search in Seconds?

YOUR GO-TO RESOURCE FOR CARTRIDGE REPLACEMENT INFO!

Choosing the right filter cartridge can be overwhelming, especially when helping a customer.

That's why we created the ONLINE OnCore Filter Finder.

It's a fast, easy-to-use search tool available anytime, anywhere, on any device.

Search by any part number or dimensions or OEM.

Instantly find replacement cartridges that match the original pool or spa manufacturer.

Save time, avoid the hassle, and make your search effortless.

Visit our website and **bookmark it** as your main resource!

ONCOREFILTRATION.COM

YOUR NAME IS ON EVERY POOL YOU SERVICE.

ONCORE. PROTECTING YOUR TIME. YOUR CUSTOMERS. YOUR REPUTATION.

Your customers don't remember media weights. They don't remember micron ratings. They remember one thing.

Did the pool stay clean?

Every OnCore Pool & Spa Filter Cartridge is built to trade-grade standards, combining precision-engineered fit, premium filtration media and rugged core construction to deliver reliable performance from installation through to the next scheduled service. That's how OnCore helps you earn lasting customer loyalty.

Because every clean pool builds your reputation

TRADE GRADE

Precision engineered to fit right the first time.

POINT-BONDED MEDIA

High dirt-holding capacity and maximum flow.

SNAP-TECH CORE TECHNOLOGY

For longer life and structural integrity.

NO ONLINE SALES OF OUR BRAND

We don't compete with our customers.

STRONGER MARGINS

Priced to help pool pros maximize margins and grow a profitable business.

WE'RE ON YOUR TEAM.

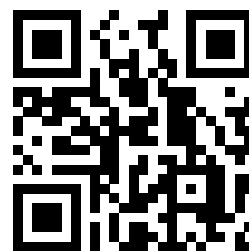

TRUSTED PRODUCTS. STRONGER PARTNERSHIPS. GREATER RESULTS.
