

The Pool Pro's Choice. Twice Over.

EVERFLOW+™

**ANTIMICROBIAL
POINT BOND MEDIA**
Inhibits Mildew and Bacteria
for the life of the cartridge

EVERCLEAR™

**PREMIUM POINT BOND
PRO-GRADE MEDIA**
Superior high-performance
filtration

TWO PROVEN TECHNOLOGIES. ONE TRUSTED NAME.

OnCore Point Bond replacement filter cartridges are engineered to deliver exceptional water clarity, dependable performance, and long service life in demanding pool and spa environments. Constructed with injection-molded virgin ABS cores and premium high-filament count spun-bond polyester media, they provide high performance debris capture and consistent water flow. Durable urethane end caps resist chlorine, mildew, and chemical deterioration, creating a rugged, easy-to-maintain cartridge. Available in EverClear trade-grade and EverFlow Antimicrobial media options to meet a variety of filtration needs.
