

OnCore SPLASH

Premium Replacement Filter Cartridges for Inflatable Pools

OnCore SPLASH Filter Cartridges deliver advanced filtration performance for inflatable, portable, and above ground pools. Manufactured using high-strength, tear-resistant polyester media and reinforced injection molded cores, these cartridges provide high-efficiency debris capture, excellent flow performance, and long service life, even after repeated cleanings and reuse.

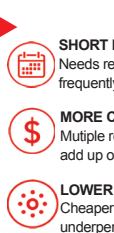

BUILT TO LAST
ALL SEASON LONG

- LONGER LIFE**
Designed for season after season use.
- POWERFUL FILTRATION**
High quality Point Bond Media.
- BETTER VALUE**
High performance filtration at an affordable price.

DISPOSABLE
FILTER
MADE TO REPLACE
FREQUENTLY

- SHORT LIFE**
Needs replacing frequently.
- MORE COST**
Multiple replacements add up over time.
- LOWER FILTRATION**
Cheaper media underperforms.

Turn an Average Small Pool Pump into a High Performance Filtration System.

- Long-life, high-value alternative to standard disposable cartridges for inflatable pools
- Reduced maintenance frequency
- Fewer cartridge replacements
- Better pump efficiency
- Cleaner water throughout the season
- Lower operating costs

PREMIUM POLYESTER FILTRATION MEDIA

• High-strength, tear-resistant polyester media captures fine dirt and debris for cleaner, clearer water.

INJECTION MOLDED CORE

• Reinforced injection molded core delivers enhanced durability and optimized water flow

BUILT FOR SEASONAL USE

• Engineered for durability and dependable performance throughout the entire swimming season.

GREAT VALUE INTEX® REPLACEMENT

• Premium quality replacement for Intex® filter cartridges delivering excellent performance at a great price.

Low-quality disposable cartridges often deliver poor filtration and require frequent replacement. OnCore SPLASH filter cartridges are engineered with premium polyester media and reinforced cores to provide cleaner water, longer life, and consistent performance season after season, all at an exceptional value.
